Tech for Teachers

Prezi: Zooming into the 21st Century
By Jill Robbins, Ph.D.
Test Developer, Second Language Testing, Inc., Rockville, MD

Inspired to try it for yourself? Here's how to do it:

Go to http://prezi.com/
Click on "Sign Up"

Choose "Student/Teacher licenses

On the next screen, choose between the free edu license, or the paid ($59/year) license that will allow you to create Prezis offline and get premium support.

	Public	Edu Enjoy	Edu Pro
Create prezis online Login to prezi.com from any online computer to create, show	✓	✓	✓
Present offline Download finished prezis so you can present offline (2)	✓	✓	✓
Make content private Choose if a prezi is private, published, or shared with		✓	✓
Your logo, instead of Prezi's Help people recognize your organization (3)		✓	✓
Prezi Desktop – work offline You can create prezis offline with a Pro license			✓
Premium Support Get support responses directly from Prezi employees within 1			✓
Storage space available on prezi.com.	100 MB	500 MB	2000 MB
	Free	Free	First 30-days free $59/year (4)
This license is valid only for active students and teachers. **Go Back**		**Get**	**Buy**

You need to have a ".edu" email account to get the free version of Prezi. Enter your email and click "continue."
A confirmation email will be sent to you, with a link that will allow you to set up your Prezi account.

Student/Teacher Verification

Please provide your email address. To register for an educational account you need to use an email address that clearly belongs to your educational institute.

Email [   ]

Please note: Your email will be your user name

Don't have a school email account?
We realize not all students are provided email accounts by their school. If you are a teacher, you can register bulk email accounts for your students with quite a few providers out there.

Already have an account at Prezi?
If you want to change your existing license to an EDU license, you need to sign in first and choose Upgrade on License and Settings page.

Go Back   Continue

Once you've received the email, log in to Prezi, click on the "Learn" tab and watch the three short videos
or read the "Cheat Sheets" to get the basics on creating a Prezi.

1+2+3: How to make a good prezi by Prezi founder Adam Somlai-Fischer.

When you feel you're ready to begin, return to the "Your Prezis" tab and click on "New Prezi."

New prezi

Complete the information about the Prezi on the next screen. Click on "New Prezi" to continue.

Use the circular menu in the upper left corner of the screen to choose the tools for creating the Prezi.

The "Zebra" (shown below over the title, Metacognition, is the main editing tool in Prezi.
It will appear over any text box or image you have placed into your work space.
Click on the pencil at the 7:00 spot on the wheel to edit the object.
Mouse to the radial wheel and turn it to change the rotation of the object. Click on the plus or minus symbol to resize the object.

A variety of multi-media can be inserted into the prezi. If you choose a You Tube video, it will automatically play when the object appears in the path (sequence of locations you choose) of your Prezi.

Once you have finished editing the Prezi, click on "Exit" via the top menu bar:

Prezi automatically saves occasionally but be sure to click on "Save" before you exit.

When you have exited the editing mode, you will see a button that allows you to set the Privacy of the Prezi in the upper right of the screen.

Click on that to change the status of the Prezi to public, permit copying, or remain private.
A private Prezi can still be shared among your students as long as they have received the URL from you.

To share your Prezi and allow editing, click on the menu below the Prezi:

If you choose "edit together " you should click on the image of an envelope to send the URL by email to the people you want to be able to edit the Prezi.

Before sharing the Prezi, you may want to demonstrate Prezi in class and show your students how to do basic editing, add images, videos, and so on.
Have fun!
